

## SOME DON'TS For Stomach and Liver Sufferers

Don't take medicine for your Stomach ailments morning, noon and night as usually such medicines only give temporary relief and simply digest the food that happens to be in the stomach.

Don't permit a surgical operation. There is always serious danger in operations and in almost every case of Stomach, Liver, Intestinal, Appendicitis and Gall Stones, the knife can be avoided if the right remedy is taken in time.

Don't go around with a foul smelling breath caused by a disordered Stomach and Liver to the discomfort of those you come in contact with.

If you are a Stomach Sufferer don't think you cannot be helped, probably worse cases than yours have been restored by May's Wonderful Stomach Remedy.

Most stomach ailments are mainly caused by a catarrhal condition. May's Wonderful Stomach Remedy not only removes the catarrhal mucus, but also the chronic inflammation and assists in rendering the entire alimentary and intestinal tract antiseptic, and this is the secret of its marvelous success.

Don't suffer constant pain and agony and allow your stomach ailments to physically undermine your health. No matter how severe your case may be, how long you have suffered—one dose of May's Wonderful Stomach Remedy should convince you that you can be restored to health again. May's Wonderful Stomach Remedy has been taken and is highly recommended by Members of Congress, Justices of the Supreme Court, Educators, Lawyers, Merchants, Bankers, Doctors, Druggists, Nurses, Manufacturers, Priests, Ministers, Farmers and people in all walks of life.

Send for FREE valuable booklet on Stomach Ailments to Geo. H. May, 154-156 Whiting St., Chicago, Ill.

For sale in South Bend by Chas. Coonley Drug Co., Public Drug Co. and druggists everywhere.

## ELKS TO ENJOY STAG FEATHER PARTY TONIGHT

Big Event Promised Members When  
A Newly Invented Game  
Will be Shown.

The members of the Elks' lodge will be entertained at a stag feather party and banquet Wednesday night. The game Keno will be introduced and those that are not familiar with the game will receive instruction. The mukkegon mandolin and banjo orchestra will furnish music and there will be dancing.

A special dance will be held Thanksgiving night to which all members and friends are invited by the committee. In the afternoon the floor will be turned over to the children and the use of a special orchestra will be given them. Elbel's orchestra will furnish the music for the dance in the evening. The hall will be decorated in the colors of the lodge.

## CHILDREN'S HAIR

Keep It Clean and Free From  
Disease By Using Parisian  
Sage.

If you want your children to grow up with strong, healthy and vigorous hair, teach them to use Parisian Sage, which can be had at any drug or toilet counter. It is one of the best, most pleasant and invigorating hair tonic on the market.

Parisian Sage cleanses the hair and scalp from dust and excessive oil. Quickly removes dandruff, stops itching scalp and falling hair. Hair that is thinning, out, faded, matted or stringy almost immediately becomes fluffy, luxuriant and radiant with life. Get a large 50 cent bottle from Wetick's Original Kut Rate Medicine Store. He will refund your money if you are not satisfied. Parisian Sage is equally good for "grown-ups" and children. Every one needs it. —Adv.

**STONY RIDGE.**  
Miss Bessie Hoffman of South Bend spent Sunday with Helen Humble.  
Miss Edna Schaffer visited Miss Helen Stuckey Sunday.  
Mrs. Barnett, who was ill, is improving.  
Miss Kathryn Goetzinger was the guest of her parents Sunday.  
Mrs. Van Buskirk of Niles spent the week-end with Mrs. C. L. Stuckey.  
Mrs. L. S. Dunham of Concord, Mich. spent Wednesday and Thursday with Mrs. C. L. Stuckey and family.  
Mrs. M. Y. Miller is seriously ill at the home of his daughter, Mrs. B. F. Barnett.  
William Markham spent last week with his brother, N. W. Markham.  
Mr. and Mrs. Joe Van der Veen spent Sunday evening guests of C. L. Stuckey and family.

**BAKERTOWN.**  
Mrs. Thanning and son, Alvah, returned from Chicago Tuesday.  
Miss Reector was called to her home at Niles Tuesday on account of the illness and death of her little nephew. School closed the remainder of the week.

Hattie Clemens and daughter, Helen, went to South Bend Wednesday to visit relatives.  
Mrs. Rogers and son, Bert, called on friends here Tuesday evening.  
M. Churwood is busy with his new home, doing some plastering and building a chimney for J. H. Best.  
Mrs. Ward Smith and son, Ronald, of New Carlisle were guests of Mr. and Mrs. Johnnie Redden last week.

J. H. Best returned from St. Joe Sunday morning and has been dismissed. D. A. Dodge will start Monday for the next term of court.  
Chas. Clemens and family spent Sunday with the L. C. Cauffman family on Portage Prairie.  
M. E. Gilbert and wife, Philip Gilbert and Chas. Clemens spent Saturday evening with J. H. Snodgrass and wife.  
Hattie Clemens returned home Sunday evening after spending several days with relatives at South Bend, Stony Ridge and Portage Prairie.

## HAS BEEN MISSING FOR OVER A MONTH

ELKHART, Ind., Nov. 26.—Mystery surrounds the disappearance on Oct. 27 of Nick Coscarello, 45 years old. Relatives, who declare they know of no reason why he should go away, have inquired in vain for traces of him.  
His little son, Joe Coscarello, 13 years old, and a pupil in the Samuel Strong building, is asking for his father. He does not understand why he should have gone without bidding him goodby or telling him where he was going. The boy is being cared for by an uncle.

The Elks will give their annual Thanksgiving dance for all Elks and their friends Thanksgiving afternoon and evening at Elks' Temple. Dancing for children from 2:30 to 5 p. m. Come and enjoy yourself. —Adv.

## The Story of the Panama Canal-By the Man Who Built It.

COL. GEORGE W. GOETHALS.  
Builder of the Panama Canal.

(Editor's Note.—This is the second part of Col. Goethals' own story of the Panama Canal, which he built, and it tells of the wonderful work of preparations and of the great obstacles that were to be overcome. Two years were spent in the work of preparation alone, in building a plant and getting together the force and the machinery. And now, for the first time, the real story of those disastrous slides and breaks is told, those tremendous upheavals of nature which increased the burden placed upon the shoulders of the great directing genius but which never caused him to waver from his purpose to finish the work in the time that was set for him to finish it. There has been no greater exhibition of endurance and sheer nerve in the history of the world than this calm, able man has given, fighting the forces of nature, directing his tremendous army of more than fifty thousand souls and pushing through every obstacle to great achievement.)

Part II.  
BY COL. GEORGE W. GOETHALS.  
Corps of Engineers, United States Army, Chairman and Chief Engineer, Isthmian Canal Commission.

(Copyrighted, 1913, by the Newspaper Enterprise Association in the United States, Great Britain, France and Germany.)

The first two and a half years of American control on the canal zone were given to preparation. All energies were devoted during that time to rid the isthmus of disease by sanitation, to recruiting and organizing a working force, and providing for it suitable houses, hotels, messes, kitchens, and an adequate food supply; to assembling the plant to do the work; to increasing the capacity of the existing railway system, and to establishing a system of civil government for the zone, which is a strip of land 19 miles wide, five miles in either side of the center of the canal, extending across the isthmus.

The work of sanitation included clearing lands draining and filling pools and swamps for the extermination of the mosquito, the establishment of hospitals for the care of the sick and injured, and the quarantine. In addition, to secure and maintain better health conditions, municipal improvements were undertaken in the cities of Colon and Panama and the various settlements along the line of the canal, such as the construction of reservoirs, with mains and adjuncts, for furnishing wholesome and suitable systems of roads.

Buildings to the number of 2,009 were constructed, including office buildings, hospitals, hotels, messes, kitchens, shops, storehouses and living quarters. In addition to this, 1,536 buildings out of a total of 2,290 buildings turned over by the French were remodelled and repaired for use. Recruiting agencies were established in the United States, Europe and the West Indies.

The Commissary department of the Panama Railroad company was enlarged.

**LYDICK.**  
Arthur Stroup and family of Cottage Hill, Mr. and Mrs. Ralph Lydick of Walnut Grove and Mr. and Mrs. Ira Brown of South Bend were guests of Charles Mikese and family Sunday.

Irvin Watkins, who was accidentally shot near the knee, is now resting some better.  
Julius Newhouse, who was badly burnt by gasoline filling his shoes seven weeks ago, is now up in a chair.  
Patent Ritter and family were guests of Mr. and Mrs. John Mathews of Crumstown Sunday.

Charles Wilkeson and family of South Bend were guests of Mr. and Mrs. George Wilkeson Sunday.  
The Misses Essie and Ethel Ritter of South Bend were guests of their parents Saturday and Sunday.  
The representatives of Libby, McNeill and Libby of Chicago, with W. J. Keller commercial agent, 304 J. M. S. Bldg., were investigating for a pickle plant here Saturday.

## LEARN THE SECRET OF KEEPING YOUNG

Good Digestion Necessary—  
Try Mi-o-na for Stomach Ills.

It is what you eat that causes most of your discomfort. Nearly all diseases have their origin in the stomach and bowels.  
If you have a coated tongue, nerves on edge, headache, heartburn, lack an appetite, and your stomach is sour, gassy and generally upset you need Mi-o-na at once. It quickly and surely gives quick relief in acute stomach distress and second to none as a stomach and intestinal tonic to build up the digestive organs. It soothes the irritated membrane and increases the flow of the digestive juices so that the stomach is always ready to care for the food as nature intended.

If you over-tax the stomach and bowels they cannot properly digest your food and you are improperly nourished—your resistance is now—you are lacking in vitality—you grow old before your time.

Get a fifty cent box of Mi-o-na now—today. Delays are dangerous. Always keep it with you at home or traveling. Wetick's Original Kut Rate Medicine Store and druggists everywhere. —Adv.

**SANTAL MIDY**  
CAPSULES  
RELIEVES IN 24 HOURS  
SUPERIOR TO COPAIBA & INJECTIONS

larged until it became a great department store, supplying to the employees whatever was necessary for their comfort and convenience. Manufacturing, cold storage and laundry plants were established and each day about 30 tons of ice, 14,000 loaves of bread, 2,400 rolls, 250 gallons of ice cream, 1,000 pounds of roasted coffee and 7,500 pieces of laundry. Four to five refrigerator cars, loaded with meats, vegetables and such fruits as could be obtained, were sent out on the night freight to distant points, and every morning a supply train of about 15 cars, of which number six to eight were refrigerator cars, left Cristobal at 4:30 to distribute food-stuffs and laundry to the local commissaries along the line, where employees could make their purchases and where the hotels, messes and kitchens secured their supplies for the day.

The construction plant, consisting of steam shovels, locomotives, cars, unloaders, spreaders, track-shifters, pile-drivers, cranes, dredges, steam-boats, tugs and barges, was purchased, for the most part "knocked down", and the shops for their erection and repair were constructed and enlarged. Some of the machinery was built from parts manufactured in the shops. The distance from the home market, with attendant vexatious delays in securing parts and material and the necessity for keeping the construction plant in the most efficient condition for economical operation, made it imperative that the shops be equipped to meet every possible contingency.

The capacity of the Panama railroad was increased by double tracking it throughout the canal zone, from Gatun to Colon and from Colon to Panama. Yards were enlarged and connections made to areas available for dumping grounds.

Laws were framed, and civil government was established with its necessary adjuncts of courts, police force, fire companies, customs and revenue service, postoffices, public works and treasury.

A purchasing department was organized in the United States for the obtaining of supplies of all kinds and descriptions. Upon arrival on the isthmus, the supplies were shipped to the various sub-divisions of the canal work for which they were purchased or they were placed in storehouses along the line for issue when required.

It was only after these various, yet necessary, adjuncts had been provided and the forces for their operation were organized that the principal work in hand, the building of the canal, could be pushed forward with any hope of success, and too much praise cannot be given to those who conceived and established them in a working condition. The department of engineering and construction was divided into three construction divisions. The Atlantic division embraced the engineering construction from deep water in the Caribbean sea to include the Gatun locks and dam; the Central division extended from Gatun to Pedro Miguel and the Pacific division from Pedro Miguel to deep water in the Pacific ocean.

As already noted, the Americans continued the work in progress by the French in the cut commonly known as the Culebra cut, utilizing the French machinery until it could be replaced by more modern appliances. This was the most formidable part of the enterprise on account of the magnitude of the cutting and also because of the difficulties attending it due to the excessive rainfall and to the varying character of the materials encountered.

The third and concluding chapter of Col. Goethals' story will be printed in this newspaper tomorrow.

**WE MEN GET CURED**  
By Expert Specialists in  
Diseases of Men  
There is absolutely no patchwork about our results of treatment. We give for each of the diseases we make a specialty, for soon after beginning our treatment every symptom of the disease disappears and the trouble never returns.  
**LOWEST CHARGES**  
Of Any Specialist.  
**QUICKEST CURES**  
That Stay Cured  
**A CERTAIN CURE**  
is what we will give you if your case is curable. If not, we will not accept your money and promise to do anything for you. The best references are given us by professional reliability are the many cured, satisfied patients we dismiss, which proves that our treatment cures when others fail to give even benefit.  
Remember, our treatment is different and better and costs less. We are willing, glad and satisfied to pay us.  
**Over 14 Years a Specialist.**  
**\$10.00 Examination Free.**

"914" We Use Dr. Ehrlich's Famous Remedy Improved "606" For Blood Poison.

**FREE CONSULTATION AND ADVICE.** If you are suffering from SPECIFIC BLOOD DISEASE—with sore mouth, throat and tongue, body rashes, call on us at once and let us administer to you one treatment of the famous "606" or "914" and you are cured. No "PAIN," "LOSS OF TIME," "NO GOING TO THE HOSPITAL," as you return home shortly after the treatment, as it only requires a few minutes of your time by our method of administration.

**THESE ARE THE DISEASES OF WHICH WE HAVE CURED SO MANY MEN—MANY OF WHOM FAILED TO RECEIVE A CURE IN TREATING WITH OTHER SPECIALISTS. NOT A DOLLAR NEED BE PAID UNLESS CURED.**

**Weakness**  
Failing Health, Nervousness, Weakness, Poor Memory, Loss of Energy, Drain on the Ambition, Wornout Feeling, Timid, Headache, Backache, Excesses, Melancholy, Easily Excited, Restless at Night are some of the symptoms that destroy manhood.  
A safe, rapid and permanent cure for Weakness is found by men from the animal extracts treatment we give them. All symptoms are soon gone. Strength, vim, vigor, vitality and a robust feeling are quickly restored.

**Hydrocele**  
Tapping a hydrocele affords but temporary relief, and the swelling soon returns, larger than before. Injecting carbolic acid, iodine and like preparations are vicious practices that rarely result in permanent cure. Our method is direct, positive, painless, does not detain you from your occupation or home, and we give you our word and absolutely guarantee that it effects a radical and permanent cure.

Hours 9 to 12, 1 to 5, evenings 7 to 8; Sundays 9-12 only. Entire Second Floor Over Peck's Shoe Store. Entrance 109 1-2 W. Washington Av.

The French so planned the excavation that after the removal of the peak of the divide and lesser summits they could work a number of excavators simultaneously at several points, so that a succession of benches or ledges resulted, lying one above the other, each with the natural surface at the point of beginning. By working in the direction of the length of the cut, the face of the bank gave the longest cutting possible, reducing the number of times the excavator must be hauled back, and secured a satisfactory drainage arrangement, since the cutting was carried up grade on either side of the summit.

The Americans followed the same method, the only difference being in the character of machinery used. The greatest difficulty encountered in the excavation was due to slides and breaks which caused large masses of material to slide or move into the excavated area, closing off the drainage, upsetting steam shovels and tearing up the tracks.

The term "slide" is applied to the movement of the overlying clay upon smooth or sloping surfaces of rock or other material harder than clay.

"Breaks" occur at points where the underlying rock is of poor quality, intersected by vertical seams or seams sloping toward the canal, and which is unable to bear up the superimposed mass. Generally the upper surface of the broken portion of the bank remains approximately horizontal, settling nearly vertically. The weight of the broken portion forces up and displaces laterally the material lying directly below it in the bottom or on the berms or ledges of the canal. Cracks in the material thus forced up is taken away the upper part gradually settles and moves towards the axis of the canal until the entire broken portion is removed.

The greatest slide was at Cucaracha and gave trouble when the French began cutting in 1884. Though at first confined to a length of 300 feet measured along the line of excavation, the slide extended to include the entire basin south of Gold Hill. This slide was the last obstruction to the canal and its removal was the opening that finally makes the canal an accomplished fact.

There were, all told, nine slides and breaks to be reckoned with, and there was nothing to do but remove the material embraced within their limits. There is no other method known to stop or prevent them. No apprehension is felt because of the slides in the future of the canal. They developed as the depth of the cut increased, and the banks slid or broke because of the condition of unstable equilibrium. When the grade was reached, equilibrium was restored, and the back pressure of the water results in greater stability.

Work has been in progress in the Culebra cut since 1880, and during the French control 18,448,000 cubic yards were removed. Between Gatun and Bas Obispo, the northern end of the Culebra cut, the French excavated which was useful to the present project amounted to 2,201,000 cubic yards or a total in the Central division of over 20,000,000 cubic yards.

Some idea of the magnitude of the operations may be formed from the fact that this division had within its jurisdiction over 200 miles of five-foot gauge track laid, about 55 miles of which were within the slide slopes of the Culebra cut alone.

**GEO. W. GOETHALS.**

## Young Man: You Can Make \$3000 to \$5000 a Year Selling This Car in Your Home Town

If you have ambitions to make money, to get ahead in the world, to have a big income, you don't need to go to Chicago where there are a million other men fighting every day to get the same things you want. For every man in Chicago who gets a good job, who finds a good opportunity, there are a thousand others who work and struggle for years and who never get anything worth while. You can establish a business in your own home town that will give you an income from \$3000 a year upwards. You can do it with only a small amount of capital, without any special training, without a college degree, provided only you have common sense, a level head and are aggressive and energetic.

I want to establish a Hupmobile Dealer in your town and I want to get the right man. I want to find a man who can raise the small amount of money required to run his business properly and who really is in earnest in his desire to make a big success. The automobile business is one of the biggest and most successful businesses in this country today and it is still in its infancy. You know dozens of men with automobiles today who didn't have them three years ago, and three years from now there will be hundreds more with automobiles who don't own them now. Somebody is going to sell those cars in the next few years—somebody is going to make a nice, comfortable income doing it.

**Are you the man?** If you are I'd like to have you write me at once, so I can go over the matter in detail with you, show you what the requirements are, show you what we can do to help you and what you can reasonably expect to accomplish. The Hupmobile is one of the most popular cars that has ever been built. It has made such a wonderful record that it is selling by thousands in Europe, where the finest built cars in the world are supposed to be made. It is not merely a low priced car—within the reach of any successful man—but it is also a high grade car, a car of class, a car that no one is ashamed to own, no matter what his position in life.

Here is a wonderful opportunity open for someone—an opportunity to get into a high grade, stable, permanent business that you can build up right at home, among your friends, among the men who know you and have confidence in you. It's an opportunity that you won't have every day, for there can be only one Hupmobile Dealer in your territory, and when that is arranged for I won't have anything more to say. If you're looking for something really good, and have the ability to make good, write to me at once.
